# Welcome!

Dear Friend:

If your family is like mine, you have busy schedules and sometimes, more to do than seems possible. Getting sick is just not part of the plan. But, when plans change, we want a doctor we can trust — one who knows us and who has our best interest at heart.

The best way to deal with illness is to plan ahead. Select your personal doctor right now so that all the resources are in place to ensure your medical needs are taken care of quickly and with as little stress as possible.

When you select a Bright Health Physicians doctor, you can feel confident in knowing you will receive personalized attention from a doctor who truly listens and cares about you and your family. Our highly-skilled doctors and trained healthcare professionals are here to partner with you in decisions about your health. They take the time to learn your history and identify which medical treatments are best for you. Office visits allow time for patient questions and discussion of wellness education and disease prevention.

With access to the most advanced medical technology and treatments, the doctors of Bright Health Physicians can provide you and your family with a full range of high-quality, world-class healthcare services. Bright Health Physicians has more than 150 primary care physicians to choose from, with medical offices conveniently located throughout Whittier and surrounding cities. If you are in need of a specialty physician, you'll have access to over 180 highly trained specialists ready to serve your healthcare needs.

And, if you should require hospitalization, you can feel comfortable knowing that Bright Health Physicians is exclusively affiliated with **Presbyterian Intercommunity Hospital (PIH)** — the community's preferred hospital.

At Bright Health Physicians, our most important responsibility is caring for our patients. Whether at the doctor's office or in the hospital, you have access to high-quality medical care backed by a long standing tradition of excellence.

This directory can help you learn more about Bright Health Physicians, our doctors, and the services we provide. If you need help choosing a doctor, our Physician Information and Referral Service is available 24 hours a day at **1.877.285.DOCS (1.877.285.3627)**, or visit [www.BrightHealth.com](http://www.BrightHealth.com).

We all want the best for ourselves and our families — and the peace of mind knowing we have chosen the right doctor. The doctors of Bright Health Physicians are ready to partner with you to enhance your good health.

Be healthy!

William H. Stimmler, MD  
President  
Bright Health Physicians

## Our Mission Statement

### Why We Are Here

We provide high-quality health care without discrimination, and contribute to the health and well-being of our communities in an ethical, safe, and fiscally prudent manner, in recognition of our charitable purpose.

# Our Values

## Our Promise

**Patients First:** Our patients' safety, well-being, and medical condition will be our primary concern at all times.

**Respect and Compassion:** We will consistently demonstrate respect and compassion for the beliefs, situation, and needs of our patients and co-workers.

**Responsiveness:** We will strive to anticipate needs and respond in a timely way to meet or exceed the expectations of others.

**Integrity:** Our attitude and actions will reflect the highest ethical and moral standards.

**Collaboration and Innovation:** We will work together — within and outside the organization — to solve problems and pursue opportunities in creative ways.

**Stewardship:** We will serve the community wisely through the efficient and prudent use of our financial resources.

# Physician Directory & Resource Guide 2010

## Dedicated to Quality

Bright Health Physicians was established in 2008, when Bright Medical Associates and Presbyterian Health Physicians merged to better serve the needs of the community they have served since 1985. Bright Health Physicians is a non-profit medical group that includes more than 150 primary care physicians and over 180 specialists. That gives you and your family ready access to highly-skilled doctors in virtually every major area of medicine. And, if you or a family member should need hospital services, Bright Health Physicians is exclusively affiliated with **Presbyterian Intercommunity Hospital (PIH)** — the community's preferred hospital.

At Bright Health Physicians, we believe that our most important responsibility is caring for our patients. Not only are the doctors of Bright Health Physicians trusted experts, but they take the time to get to know you and your family, and provide you with the personalized health care you deserve. Our doctors have access to the latest medical technology and treatments designed to deliver the high-quality health care you and your family need.

With a proactive, coordinated approach to patient care, our doctors help you understand that health is more than the absence of disease — it is an optimal state of well-being. Medical office visits include time for questions and answers and wellness education.

We understand that your healthcare needs are varied and ongoing. Our commitment to you goes above and beyond regular business hours. Our special benefit services, including community education, urgent care and after-hours care access, community health screenings, and mobile screening clinics provide information and services to you whenever and wherever they are needed.

If you are hospitalized at PIH, your care may be managed by a Bright Health Physicians hospitalist — a Bright Health Physicians doctor based at PIH to solely care for hospitalized patients (adults and children) and communicate with each patient's primary care physician. Just as your primary care physician is an expert at managing your medical care in his or her office, Bright Health Physicians hospitalists are experts at managing your medical care in the hospital. Whether you are at the doctor's office or at the hospital, our physicians are committed to providing you and your family with superior health care.

The Bright Health Physicians hospitalist program is designed to ensure you receive the best care available during your hospital stay. The hospitalist reviews your medical history, monitors your condition, orders tests, consults with specialists, and communicates with your primary care physician. Because hospitalists are assigned to the hospital 24/7, they can adjust your treatment as often as needed and answer questions from you, your family and primary care

physician whenever they arise. When you return home, the hospitalist will send your primary care physician a summary of your hospital care, medications prescribed, and any follow-up care you may need.

Two other types of healthcare professionals — nurse practitioners and physician assistants — work as members of our healthcare team. Our dedicated nurse practitioners and physician assistants work in our medical offices under the close supervision of doctors to provide medical care and to improve the health of our patients.

These highly qualified, licensed healthcare professionals have advanced training and education in the diagnosis and management of common and complex medical conditions. Nurse practitioners help patients manage chronic illnesses, provide primary care, order diagnostic tests, prescribe medications, and provide rehabilitation therapy and other treatments. Physician assistants conduct physical exams, diagnose and treat illnesses, order and interpret tests, counsel on preventive health care, and write prescriptions.

With a focus on providing exceptional care and patient satisfaction, Bright Health Physicians is your partner in health care. Our doctors and healthcare professionals are committed to always being ready and available to provide you and your family with high-quality health care.

## Full Range of Healthcare Services

At Bright Health Physicians, our professional and courteous staff make appointments that work with your schedule. We provide you and your family with comprehensive healthcare services that are reliable and well-coordinated, including:

- Adult medical care
- Cardiology care
- Complete orthopaedic care
- Complete pediatric and adolescent care
- Convenient pharmacy access
- Obstetrics and gynecology care
- Pain management
- Physical exams
- Physical medicine and rehabilitation
- Podiatry care
- Senior health care
- Surgical and oncology care
- Urgent care and after-hours care

## Convenient Locations

The strategic locations of the Bright Health Physicians medical offices make health care convenient for you and your family. Our offices are located in Whittier, Hacienda Heights, Norwalk, La Habra, La Mirada, and Santa Fe Springs. A list of our physicians and their medical office locations begins on page 8.

# Physician Directory & Resource Guide 2010

## Your Link to Presbyterian Intercommunity Hospital

For many area residents, **Presbyterian Intercommunity Hospital (PIH)** is the hospital of choice. Founded in 1959 with the community's trust and support, PIH is a major hospital with more than 400-beds and several Centers of Excellence including: Heart & Lung Center; Ruby L. Golleher Comprehensive Cancer Program; Patricia L. Scheifly Breast Health Center; Ruth B. Shannon Maternity Care Center; R.C. Baker Foundation Emergency Department; and PIH Home Health Services.

Accredited by The Joint Commission, PIH is the recipient of several prestigious honors. The American College of Surgeons Commission on Cancer commended the Ruby L. Golleher Comprehensive Cancer Program. The Emergency Medical Services (EMS) Agency of Los Angeles County recognized PIH as a ST Elevation Myocardial Infarction (STEMI) Receiving Center for improving the speed and quality of lifesaving care for heart attack patients. The PIH Emergency Department is specially approved by Los Angeles County to receive pediatric patients.

PIH recently received the American Stroke Association's Get With the Guidelines<sup>SM</sup>—Stroke (GWTG-Stroke) Silver Performance Achievement Award. This honor recognizes the hospital's commitment and success in implementing high standards of stroke care by ensuring that stroke patients receive treatment according to nationally accepted standards and recommendations.

The doctors of Bright Health Physicians are similarly committed to providing quality care and patient satisfaction. They are dedicated to making health care more reliable, better coordinated, and convenient. Bright Health Physicians is the only medical group linked to PIH.

## Urgent Care and After-Hours Care

To continuously serve the needs of Bright Health Physicians patients, we offer conveniently located urgent care and after-hours care. Patients are seen on a walk-in basis at the following locations (no appointment is necessary).

### Bright Health Physicians Urgent Care

15733 Whittier Blvd.

Whittier, CA 90603

Phone 562.947.7754

(Cross streets Whittier Blvd. & Santa Gertrudes)

Hours: Monday – Friday from 2 to 10 pm

Weekends & Holidays from 9 am to 6 pm

### After-Hours Care (Imperial Primary Care)

15034 Imperial Highway

La Mirada, CA 90638

Phone 562.902.3000

Hours: Monday – Friday from 5 to 9 pm

Weekends & Holidays: 8 am to 4 pm

A patient's co-payment for after-hours care is the same as an office visit co-payment. After-hours care does not require prior authorization.

## We're Insurance Friendly

Bright Health Physicians accepts most HMO, PPO, POS, Medicare Advantage, Original Medicare, and other health insurance plans. Please check with the individual physician's office if you have a question about a specific health plan. We also welcome self-pay patients.

## Health Education Helps Patients Stay Well

Our community education programs can help you stay well! Bright Health Physicians is committed to educating our patients and the community. Our health education programs are based on the belief that people have the ability to achieve their own individual state of wellness through behavior and lifestyle changes.

Open to the public and designed to help you create a healthier lifestyle, our health education programs are available free of charge or at a minimal fee. All of our classes are designed to enhance individual self-awareness and responsibility toward developing and maintaining a healthier lifestyle. For additional information, call the Bright Health Physicians Patient Services Department at **562.947.1451 Ext. 2950**, or visit [www.BrightHealth.com](http://www.BrightHealth.com).

## Need Help Finding a Bright Health Physicians Doctor?

Our complimentary Physician Information and Referral Service can help you find a match between a highly skilled Bright Health Physicians doctor and your medical needs and preferences. Call us at **1.877.285.DOCS (1.877.285.3627)** for timely, trustworthy, accurate information — available 24 hours a day! We will provide you with information about each doctor's education, training, office location, and more.

## Contact Us

For more information on Bright Health Physicians, please contact our Patient Services Department at **562.947.1451 Ext. 2950**, or visit us at [www.BrightHealth.com](http://www.BrightHealth.com).

# MEDICAL FOUNDATION PRIMARY CARE PHYSICIANS

## Family Medicine

Trained in all areas of medicine, a family medicine physician cares for the physical, mental, and emotional needs of everyone in your family. A family medicine physician understands your personal health history and cares for you at all stages of life. With a focus on delivering a range of acute and preventive care services and current medical treatments, our family medicine physicians are dedicated to your health. In addition to diagnosing and treating illness, our family medicine physicians also manage chronic illness and often coordinate care with specialists.

## Internal Medicine

Internal medicine physicians, also called internists, receive extensive training in diagnosing, treating and preventing illness in adults. Our internal medicine physicians are experts at diagnosing and caring for patients with simple and complex illnesses. They are specially trained to solve puzzling diagnostic problems, handle severe chronic diseases, and situations where multiple illnesses occur simultaneously. Our internal medicine doctors provide patient care, wellness education, and disease prevention.

## Pediatrics

Possibly no other healthcare professional becomes more a member of your family than a pediatrician. From well baby visits to annual check-ups, a pediatrician cares for your child from birth through the young adult years. Our pediatricians perform physical exams, educate parents about the normal growth and development of their child, treat common childhood illnesses, coordinate the care of chronic illnesses and complex medical problems, and help resolve psychosocial or behavioral issues that arise during childhood and adolescence.

## Reminder.

You've been thinking about switching to a new medical group. Now's the perfect opportunity to choose a medical group that allows you access to Presbyterian Intercommunity Hospital (PIH). Bright Health Physicians is a medical group with over 150 primary care physicians, more than 180 specialists, and a number of convenient medical office locations throughout Whittier, Santa Fe Springs, La Mirada, Norwalk and Hacienda Heights. In many cases, you can switch to Bright Health Physicians and keep your current doctor. Not only are the doctors of Bright Health Physicians trusted experts, but they take the time to know you and your family, and provide you with the personalized health care you deserve. On top of that, they're your best link to PIH, the community's preferred hospital.

## Cardiology

Your heart beats more than 100,000 times a day. A cardiologist is a physician who keeps your heart, arteries, and veins (your cardiovascular system) healthy through medical care, fitness, and educational programs. From medical intervention to cardiac catheterization, our highly trained, board certified cardiologists have access to the newest medical technology and treatments. Cardiology is a subspecialty of internal medicine.

## Obstetrics & Gynecology

Obstetricians and gynecologists (OB/GYNs) are physicians who focus on the female reproductive system. They provide health care to women of all ages, including teens, expectant mothers, and women in menopause. Our obstetricians and gynecologists focus on the prevention, diagnosis, and treatment of ailments specific to the female anatomy, including breast and cervical cancer, urinary tract and pelvic problems, and hormonal disorders. They specialize in childbirth, as well as treating and counseling women throughout their pregnancy (including infertility and high-risk pregnancy) from prenatal diagnoses to delivery and postpartum care.

## Orthopaedic Surgery

Orthopaedic surgeons treat the musculoskeletal system, including bones, joints, ligaments, muscles, nerves, and tendons. These physicians often specialize in certain areas of the body, such as the foot and ankle, hand, back, shoulder and elbow, hip or knee. Our orthopaedic surgeons treat traumatic bone injuries (fractures and dislocations), joint disturbances (sprains, torn cartilages, or strained ligaments), and inflammation of the muscle or connective tissues (bursitis, myositis, and tendonitis). Our orthopaedic surgeons also focus on specialty areas including pediatrics, trauma, reconstructive surgery, and sports medicine. They use surgery, medications, exercise and other rehabilitative or alternative therapies to treat patients.

**Robert Bohr, MD – Orthopaedic Surgery**  
 1400 S. Harbor Blvd. #A, La Habra, CA 90631

## Pain Medicine

Pain medicine physicians are usually anesthesiologists with special training in managing all types of pain. These physicians focus on the cause of pain, the body's reaction to pain, how medications minimize or eliminate pain, and how other treatments can relieve painful conditions. Our pain medicine physicians work closely with other physicians and nurses, physical therapists, and rehabilitation therapists to evaluate patients and create individualized pain management programs for them.

**Ali Hafezi, MD – Pain Management/Physical Medicine and Rehabilitation**  
12462 Putnam St. #402, Whittier, CA 90602

562.789.5466

Medical School: Finch University of Health Sciences-The Chicago Medical School

Medical School: Tehran University of Medical Sciences  
Internship: State University of New York at Buffalo  
Residency: Charles R. Drew University of Medicine and Science  
Fellowship: UC Irvine Medical Center  
Board Certified: American Board of Anesthesiology  
Subspecialty Certification in Pain Medicine

## Podiatry

Your feet carry you thousands of miles over a lifetime. Keeping them healthy and strong goes a long way toward maintaining an active and full life. Our board certified podiatrist is trained to treat the foot, ankle and lower portion of the leg, and performs surgery on all of these areas to correct deformities of the foot. Podiatrists have a special understanding of the complex biomechanics of foot problems, proper molding of orthotics, and diabetic foot care.

**Byron Alberty, DPM – Podiatry**  
12462 Putnam St. #402, Whittier, CA 90602

562.789.5464

Medical School: Rosalind Franklin University  
Internship: Brea Community Hospital  
Residency: Brea Community Hospital  
Whittier Medical Center  
Board Certified: American Board of Podiatric Surgery

## Spine Surgery

A spine surgeon is an orthopaedic surgeon with extensive training in spinal disorders. Our spine surgeon is highly skilled in treating disc herniations, disc degenerations, spinal stenosis, fractures of the spine, slippage of the spine (spondylolisthesis), and scoliosis. In addition to performing surgery, a spine surgeon treats patients with nonsurgical procedures, including physical therapy and rehabilitation, occupational therapy, and spinal injections.

**Melanie Kinchen, MD – Orthopaedic Surgery**  
12462 Putnam St. #402, Whittier, CA 90602

562.789.5432

Medical School: Harvard Medical School  
Internship: Johns Hopkins Hospital  
Residency: Johns Hopkins Hospital  
Fellowship: Johns Hopkins Hospital  
Board Certified: American Board of Orthopaedic Surgery

## A Reminder Worth Repeating.

Why spend more time being less satisfied with your medical care? Find out why your friends and neighbors are so impressed with Bright Health Physicians. You may learn that we have over 150 primary care physicians and more than 180 specialists who take the time to listen to, and get to know our patients and their families. We believe you will also hear that we provide personalized health care that you and your family can count on through every stage of life.

Bright Health Physicians is the community's only medical group linked to Presbyterian Intercommunity Hospital (PIH),

the area's preferred hospital. We provide same day access for primary care in most of our offices and have an Urgent Care Center with convenient access in the evenings, on weekends, and holidays.

Chances are, you can switch to Bright Health Physicians and keep your current doctor. Call the member services department of your health plan now and let them know you'd like to switch to a doctor affiliated with Bright Health Physicians.
